

Pacific Software Conducts Successful Tradeshow and Business Development Mission to Guangzhou and Shanghai

Pacific Software, Inc. (OTC:PFSF) ("Pacific Software" or the "Company"), an emerging development technology corporation positioned for investments, mergers and acquisitions of software technologies and platforms, participated as a co-sponsor of "Latin America Night" at the 124th session of the Canton Fair PDC (Product Development Council) Design Show in Guangzhou (Canton) China.

Executive Management from Pacific Software, Inc. along with their local representatives in China hosted and co-sponsored various events in Canton during the Canton Fair and in Shanghai during the China International Import Expo. Pacific Software offered the opportunity to facilitate key introductions and expertise in e-commerce marketing solutions in China and was onsite to discuss the latest developments in their B2B and B2C blockchain solutions utilizing IBM's Hyperledger Blockchain "Backend as a Service" (BaaS) Infrastructure.

Highlights

- PFSF Guangzhou/Shanghai trip focuses on fostering trade between Brazil and China
- Partnerships with Government and trade associations in China, fostering connections with high level Government contacts and prominent private importers.
- PFSF is cooperating with Canton Fair Product Design & Trade Promotion Centre (PDC) and its agents to help promote its e-commerce solutions with importers and exporters.
- PFSF to open Shanghai office to serve as crossroads for business, development and networking.

Designing and Powering Hyperledger Blockchain Technologies

- Creating solutions for sectors highly reliant on supply chain transparency and efficiency.
- Uniquely positioned to deliver B2B and B2C e-commerce blockchain solutions.
- E-commerce platform will digitalize the trade process, including product certification, marketing, logistics, trade finance, cross border payment solutions and customs clearance through smart contract technology for global supply chain management.

PFSF Executive Management and their local representatives visit Shanghai business park, location for proposed office space.

The Brazilian Flag takes center stage during Latin Night

About Pacific Software

Pacific Software, Inc. (PTC: PFSF) is an emerging development technology corporation positioned for investments, mergers and acquisitions of software technologies and platforms. The Company is uniquely positioned to deliver B2B and B2C e-commerce blockchain solutions by utilizing IBM's Hyperledger Blockchain "Backend as a Service" (BaaS) Infrastructure. Its platform will improve product traceability and will digitalize the trade process, including product certification, marketing, logistics, trade finance, cross border payment solutions and customs clearance through smart contract technology for global supply chain management.

Forward Looking Statements

Securities Exchange Act of 1934, as amended. Any statements contained in this press release that are not statements of historical fact may be deemed forward-looking statements. Words such as "continue," "will," "may," "could," "should," "expect," "expected," "plans," "intend," "anticipate," "believe," "estimate," "predict," "potential," and similar expressions are intended to identify such forward-looking statements. All forward-looking statements involve significant risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, many of which are generally outside the control of Pacific Software, and are difficult to predict. Examples of such risks and uncertainties include but are not limited to whether the hyperledger blockchain technology solutions will be well received or utilized. Additional examples of such risks and uncertainties include, but are not limited to (i) Pacific Software's ability (or inability) to obtain additional financing in sufficient amounts or on acceptable terms when needed; (ii) Pacific Software's ability to maintain existing, and secure additional, contracts with users of its solutions; (iii) Pacific Software's ability to successfully expand in existing markets and enter new markets; (iv) Pacific Software's ability to successfully manage and integrate any acquisitions of businesses, solutions or technologies; (v) unanticipated operating costs, transaction costs and actual or contingent liabilities; (vi) the ability to attract and retain qualified employees and key personnel; (vii) adverse effects of increased competition on Pacific Software's business; (viii) changes in government licensing and regulation that may adversely affect Pacific Software's business; (ix) the risk that changes in consumer behavior could adversely affect Pacific Software's business; (x) Pacific Software's ability to protect its intellectual property; (xi) local, industry and general business and economic conditions. Additional factors that could cause actual results to differ materially from those expressed or implied in the forward-looking statements can be found in the most recent quarterly report on filed by Pacific Software with the Securities and Exchange Commission. Pacific Software anticipates that subsequent events and developments may cause its plans, intentions and expectations to change. Pacific Software assumes no obligation, and it specifically disclaims any intention or obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law.
